

SWEET PEPPER HYBRIDS

Variety	Relative Maturity	Fruit Size/Shape	Fruit Color	Plant Habit	Disease Resistance	Uses & Remarks
Bell: Outdoor						
Bandai	Mid-late	Large to extra-large, blocky	Dark green to red	Medium to tall with good cover	R: PMMoV: 1.2.3 IR: TSWV	Very good production, fruit cover and quality. Well suited for indoor production.
Classic	Mid	Large to extra-large, blocky	Green to red	Medium plant with good cover	R: Xcv: 1-3	Approaches greenhouse quality in the open field.
Double Up	Mid-early	Large to extra-large, blocky	Green to red	Medium-large with great cover	R: TMV: 0 / Xcv: 1-3	Dependable performer for multiple seasons.
Excel	Mid	Large to extra-large, blocky to deep blocky	Dark green to deep red	Well branched, strong plant		Multi-season bell pepper for harvest as green or red.
Red Bull	Mid	Extra-large, blocky	Dark green to red	Strong plant, excellent cover	R: Xcv: 1-3	Excellent yields of smooth, thick-walled fruit.
Touchdown (SPP6001)	Mid	Large to extra-large, blocky	Green to red	Medium	R: Xcv: 1-5	Wide adaptability, very high yield potential.

Bell: Indoor						
Divo	Mid	Large to extra-large (230 gm avg.)	Green to red	Medium to big, vigorous	R: PMMoV: 1.2.3 / TMV: 0 IR: TSWV	For plastic and shade house production.
Novus	Mid	Large to extra-jumbo (250 gm avg.)	Green to red	Vigorous, large	R: PMMoV: 1.2.3 / TMV: 0 / IR: TSWV	Versatile and vigorous for protected culture.
Troyano	Mid	Large to extra-large, blocky	Green to red	Medium to tall	R: PMMoV: 1.2.3 / TMV: 0	Excellent variety for indoor and field production.
Vikingo	Mid	Extra-large, blocky	Green to yellow	Medium to tall	R: PMMoV: 1.2 / TMV: 0	High yield and extra large fruit for greenhouse.

Variety	Type	Relative Maturity	Fruit Size/Shape	Fruit Color	Plant Habit	Disease Resistance	Uses & Remarks
Cubanelle:							
Grenada	Outdoor	Mid	Extra-large, long blocky	Pale green to red	Good cover on strong plant	R: Xcv: 1-3	Smooth quality fruit.
Lamuyo:							
Fabuloso	Outdoor	Early	Large long, blocky	Dark green to red	Tall, vigorous	R: PVY: 0.1.2 / TMV: 0	Thick wall and heavy set.
Martha-R	Outdoor	Mid	Medium-large, long blocky	Dark green to red	Large, vigorous	R: Pc / PVY: 0.1.2 / TMV: 0	Uniform and continuous fruit setting.
Midas (SPP7228)	Indoor / Outdoor	Mid	Large to extra-large, long block	Dark green to yellow	Medium to tall	R: PMMoV: 1.2.3 / TMV: 0	Excellent variety for indoor and field production.

Variety	Vigor	Disease Resistance	Uses & Remarks
Rootstock:			
Dorado (SPP9901)	Very strong	R: ToMV / PVY: 1.2 / Mi / Mj / Rs IR: Pc	Good disease resistance. Provides improved and extended harvest potential.
Meeting	Strong	R: TMV: 0 IR: Pc / Rs	Good scion compatibility.

Disease terminology: R = Resistance, IR = Intermediate resistance.

Disease abbreviation code: Mi – Root knot, Mj – Root knot, Pc – Phytophthora root rot, PMMoV – Pepper mild mottle, PVY – Potato Y, Rs – Bacterial wilt, TMV – Tobacco mosaic, ToMV – Tomato mosaic, TSWV – Tomato spotted wilt, Xcv – Bacterial spot.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.

SAKATA[®]
PEPPER
ADVANTAGE
Sweet

Sakata has invested in developing a new range of sweet peppers encompassing a number of important segments for the NAFTA markets like sweet bell, lamuyo and cubanelle. There is a range for outdoor and indoor segments as well as excellent rootstock hybrids to support your indoor long cycle productions.

Below are the benefits you can take advantage of growing Sakata Sweet Peppers.

Classic

- Excellent quality, approaches "greenhouse quality" in a field grown pepper.
- Super smooth, thick-walled fruit with flat shoulders and bottoms.
- Performs well in both the Western U.S. and the East Coast.
- R: Xcv: 1-3

Double Up

- Dependable performer in most Western U.S. growing regions.
- Excellent yields with consistent quality season after season.
- R: TMV: 0 / Xcv: 1-3

Excel

- Excellent appealing red color when harvested at full maturity.
- Smooth, thick-walled fruit.
- Versatile for both green and red harvest, fresh market and processing.

Red Bull

- Top yielder in 2005 UCCE San Joaquin County Bell Pepper Trial.
- Widely adapted including California, the Pacific Northwest and the Southeastern U.S. Resistant to Xcv: 1-3.
- Deep red mature color and thick walls means versatility for both fresh market and processing.

Divo

- Firm fruit with large to extra-large size.
- Ideal for the Dutch (2 stem) system of training.
- R: PMMoV: 1.2.3 / TMV: 0 IR: TSWV

Vikingo

- Extra-large, attractive yellow bell for greenhouse production.
- Well suited to warm-cool production seasons.
- Early with great yields.
- R: PMMoV: 1.2 / TMV: 0

Novus

- This versatile pepper grows well in both Dutch and multi-stem training systems.
- Great sizes (extra-large to jumbo) and a large, strong plant leads to excellent yields.
- R: PMMoV: 1.2.3 / TMV: 0 IR: TSWV

Grenada

- Well-adapted to the Mid-Atlantic, Southeast and Caribbean growing regions.
- Large to extra-large smooth, straight fruit with a shallow shoulder cavity.
- R: Xcv: 1-3

Fabuloso

- Dark green, shiny, smooth fruit with a thick wall.
- Early maturity on a tall, vigorous, productive plant with good cover.
- R: PVY: 0.1.2 / TMV: 0 IR: Pc

Dorado (SPP9901) – Rootstock

- Adapted for long cycle production.
- Improved scion yield and quality potential.
- R: ToMV / PVY: 1.2 / Mi / Mj / Rs IR: Pc
