

New! Peppers for the East

GRIDIRON F1

Bell: Outdoor
Impressive Yield Potential

Gridiron is an early maturing, extra-large blocky dark green-to-red bell with impressive yield potential. The fruit are smooth, glossy and high quality, with thick walls and a uniform blocky shape.

Disease Resistance:

HR: TMV: 0 / Xcv: 0-5, 7-9

IR: TEV

TOUCHDOWN F1

Bell: Outdoor
Continuous Setting Ability

Touchdown offers a strong prolific plant with continuous setting ability and excellent cover. This variety has high yield potential of large to extra-large blocky fruit that mature from green to red. The fruit are smooth and have a uniformly blocky shape with thick walls.

Disease Resistance:

HR: TMV: 0 / Xcv: 0-5, 7-9

BLITZ F1

Bell: Outdoor
Wide adaptability

Blitz is an early-maturing, extra-large blocky green-to-red bell with great yield potential at first harvest. Fruit are high quality with thick walls and a uniformly blocky shape. It is a consistent performer providing size and quality. Blitz has excellent open field performance and is also adapted for production in high tunnel and mid tech protected culture.

Disease Resistance:

HR: TMV: 0 / Xcv: 0-5, 7-9

IR: TEV

Trial Report: Winning Performance at UF/IFAS

The University of Florida's Institute of Food and Agricultural Sciences (UF/IFAS) is a federal-state-county partnership dedicated to developing knowledge in agriculture, human and natural resources, and the life sciences. IFAS provides research and development for Florida's agricultural, natural resources and related food industries. Over the past four years in IFAS trials, the following results were reported:

IFAS Scorecard: Touchdown & Blitz

Variety	Year	Season	Location	Ranking	Comments
Blitz	2010	Winter	West Palm Beach	#1 First Harvest	Dark green fruit, mostly 4-lobed, extra-large and jumbo
Blitz	2011	Spring	Immokalee	#1 Total Harvest	Dark green fruit, 3-4-lobed, extra-large and jumbo
Blitz	2011	Fall	West Palm Beach	Top 6 Total Harvest	Dark green fruit, mostly 4-lobed, large and extra-large
Blitz	2012	Spring	Immokalee	#3 Total Harvest	Dark green fruit, 3-4-lobed, extra-large and jumbo
Blitz	2013	Fall	West Palm Beach	Top 3 Total Harvest	Dark green fruit, mostly 4-lobed, large and extra-large
Touchdown	2009	Winter	West Palm Beach	#1 Total Harvest	Fruit mostly 4-lobed, large and extra-large size
Touchdown	2010	Winter	West Palm Beach	#2 Total Harvest	
Touchdown	2013	Fall	West Palm Beach	#1 Total Harvest

High yield and extra large fruit for greenhouse and open field staking.	Suited for green harvest. Very good color and quality. High yield and extra large fruit for greenhouse and open field staking.
	VIKINGO	Bell, Indoor	Mexico, Central America			✓			✓	Green/Yellow	Blocky	Medium to tall	HR: PMMoV: 1.2 / TMV:0	Great color and quality. High yield and extra large fruit for greenhouse.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease abbreviation code: Pc - Phytophthora root rot, PMMoV - Pepper mild mottle, PVY - Potato Y, TEV - Tobacco etch, TMV - Tobacco mosaic, TSWV - Tomato spotted wilt, Xcv - Bacterial spot.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
