RuBee Goddess is a large-fruited indeterminate red salad variety, that is early maturing and has high-quality fruit on a productive plant with strong disease resistance. The fruit are globe in shape, firm and have a deep red color at maturity. The mid-compact plant has short internodes, with mid to mid-strong vigor and is well suited for staked open field and high tunnel. Key features are the great fruit quality, flavor and a strong disease package including late blight.

Rootstock

Balance

Balance is a rootstock with medium-strong vigor and can be easier to manage plant balance from the early part of the production cycle. It is well suited for use in soil or hydroponic systems for medium and long cycles. Balance works well with vigorous scions that are inclined to loose quality due to challenges to balance from the beginning of the growing cycle.

Synergy

Synergy is a rootstock with medium-strong vigor and is well suited to balance high vigor scions. It is best suited for medium and short cycles and non-heated conditions. It is generative and well suited for specialty type tomatoes.
