

Pepper FOCUS

Cubanelle

Grenada (Hybrid)

Grenada is a cubanelle that offers high resistance to Xcv: 0-3, 7, 8. It is well adapted to the Mid-Atlantic, Southeast and Caribbean. This large to extra-large variety boasts smooth fruit with a shallow shoulder cavity and excellent overall quality. Grenada offers strong plants with great yield potential.

- Smooth, quality fruit

Variety	Type	Relative Maturity*	Fruit Size / Shape	Fruit Color	Plant Habit	Disease Resistance	Uses & Remarks
Grenada	Cubanelle	Mid	XL / long blocky	Light green to red	Good cover on strong plant	HR: Xcv: 0-3, 7, 8	Smooth quality fruit.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease abbreviation code: Mi - Nematode, Pc - Phytophthora root rot, PMMoV - Pepper mild mottle, PVY - Potato Y, Rs - Bacterial wilt, TEV - Tobacco etch, TMV - Tobacco mosaic, TSWV - Tomato spotted wilt, Xcv - Bacterial spot.

* Days to Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
