

Kale FOCUS

Fresh

Blue Ridge (Hybrid)

This hybrid features dark, blue-green foliage with an attractive, triple curl on all leaves. Blue Ridge offers a semi-tall plant type, mid-season maturity and an extended yield. It is also slow to bolt or stretch, and is suitable for hand stripping or cutting for fresh market, mechanical harvesting and processing. Blue Ridge is widely adapted to all kale producing areas.

- Widely adapted and slow bolting
- Offers extended harvests

Variety	Type	Days to Maturity from Direct Seed*	Plant Habit	Leaf Characteristics	Leaf Color	Bolt Resistance	Uses & Remarks
Blue Ridge	Fresh	60	Upright	Triple Curled, cut	Blue-green	Very High	Hand stripping, cutting for fresh market.

* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
