

# Kale FOCUS

**Baby Leaf / Fresh**

## Improved Dwarf Siberian

Improved Dwarf Siberian is a multipurpose variety that can be used for baby leaf or fresh markets. For fresh markets it has a deep green smooth rippled leaf with an upright plant habit. Thick petioles allow for easy bunching with less plant damage. For baby leaf it has smooth thick medium green round–oval leaves that have an upright plant habit.

- For baby leaf or fresh markets
- Deep green leaf color
- Smooth rippled leaves

Variety	Type	Days to Maturity from Direct Seed*	Plant Habit	Leaf Characteristics	Leaf Color	Leaf Shape	Uses & Remarks

\* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
