

Melon FOCUS

Honeydew

Dulce Nectar (Hybrid)

Dulce Nectar is an early and late season honeydew. It mostly size 5's with some 4's. This melon has a round-oval shape with dense light green flesh and a medium closed cavity. Dulce Nectar has a creamy white exterior. It grows well in cool conditions transitioning to warm or hot.

- Good sizes
- High yields for growing in cool to warm or hot seasons

Variety	Type	Relative Maturity*	Fruit Size / Shape	Rind Characteristics	Interior Characteristics	Disease Resistance	Uses & Remarks
Dulce Nectar	Honeydew	Early-late	4s & 5s / round oval	Smooth, creamy white	Light green flesh with closed cavity	HR: Fom: 2 IR: Sf: 1, 2	Good sizes and high yields for growing in cool to warm or hot seasons.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Fom - Fusarium wilt, Sf - Powdery mildew.

* Days to Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
