

Pak Choi **FOCUS**

White Stems

Joi Choi (Hybrid)

This hybrid revolutionized the production of pak choi in North America by making it a reliable, easy crop to grow. Joi Choi is slow bolting with excellent uniformity. This variety has been accepted nationwide and is the standard variety in the industry.

- Easy to grow, widely used
- Outstanding uniformity
- Can get quite large

Variety	Type	Days to Maturity from Direct Seed*	Habit	Head Characteristics	Bolt Resistance	Uses & Remarks
Joi Choi	White Stems	Mid-early / 55	Semi-upright	Bright green leaves, heavy white petioles	High	Easy to grow, outstanding uniformity, widely used. Can get quite large.

* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
