

Pak Choi FOCUS

Mini

Li Ren Choi (Hybrid)

Li Ren Choi is an extremely attractive mini pak choi with light green stems and slightly darker green leaves. This variety develops a pak choi shape at a very early stage. It can even be planted in trays and harvested at transplanting time. It is one of the smaller mini pak chois on the market. This variety is ideal for producing premium pak choi hearts for the Asian market.

- Novelty item
- Develops pak choi shape very early

Variety	Type	Days to Maturity from Direct Seed*	Habit	Head Characteristics	Bolt Resistance	Uses & Remarks
Li Ren Choi	Mini	Early / 40	Upright, compact	Light green	High	This variety develops a pak choi shape at a very early stage.

* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
