

Pepper FOCUS

Poblano

Caballero (Hybrid)

Caballero set the industry standard for hybrid poblanos. This fruit is smooth, very dark green in color and consistently has two lobes, Caballero is well suited for both fresh and processing.

- Industry standard for hybrid poblanos

Variety	Type	Relative Maturity*	Fruit Size / Shape	Fruit Color	Plant Habit	Disease Resistance	Uses & Remarks
Caballero	Poblano (ancho)	Mid-late	Large / flat tapers to point	Dark green to dark red	Large, vigorous		For fresh market or processing. Industry standard for hybrid poblano.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease abbreviation code: Mi - Nematode, Pc - Phytophthora root rot, PMMoV - Pepper mild mottle, PVY - Potato Y, Rs - Bacterial wilt, TEV - Tobacco etch, TMV - Tobacco mosaic, TSWV - Tomato spotted wilt, Xcv - Bacterial spot.

* Days to Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
