

Spinach **FOCUS**

Baby Leaf / Multi

C2-606 (Hybrid)

C2-606 is a high yielding, smooth, dark green baby leaf variety. It has uniform spade shaped leaves. C2-606 has an upright plant habit and is very bolt tolerant. This variety is a slower growing variety that is well suited for warmer planting slots.

- Dark green
- Slow Growing
- High Pfs resistance

Variety	Type	Days to Maturity from Direct Seed*	Plant Type / Leaf Shape	Leaf Color	Bolting Resistance	Disease Resistance	Uses & Remarks
C2-606	Baby Leaf / Multi	20-25	Upright / smooth, spade	Dark green	Excellent	HR: Pfs: 1-9, 11-16	This variety is a slower growing variety that is well suited for warmer planting slots.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Ao - White Rust, Pfs - Downy mildew.

* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
