

Broccoli **FOCUS**

Crown / Multi / Processing

Centennial (Hybrid)

An exciting addition to Sakata's vast broccoli product line. Centennial has small beads, smooth heads and minimal sideshoots. This multi-use variety performs well in all Marathon slots and can be grown year-round in the cool coastal growing regions.

- A heavy-headed and small-beaded variety
- Can be multi-use in many regions
- Can be grown year round in cool coastal regions

Variety	Days to Maturity from Direct Seed*	Plant Height	Head Color	Head Characteristics	Bead Size	Disease Resistance	Uses & Remarks
Centennial	97-100	Medium	Green	Domed, dense, smooth	Small		Excellent variety for crown cut and processing.

Disease terminology: IR = Intermediate Resistance. Disease code: Hb - Downy mildew, Pb - Club root.

* The days to maturity are calculated as an average of fall harvest dates for direct seeded broccoli in Salinas, CA. Some sowing dates may result in earlier or later maturity. Overwinter production can add over 20 days to the numbers listed.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
