## Olympia (Hybrid)

Olympia is a moderate growing, processing variety. It has large, smooth, elongated oval, medium green leaves. It is a bolt tolerant variety with a preferred growing window that is early spring or late summer. Olympia offers high yields and multi cuts for processing growers due to its bolt tolerance and large leaves. In addition, Olympia has resistance to races 11-12, 14 & 16 of downy mildew.

- Round – Oval leaf
- Processing variety
- Slow bolting

Variety	Type	Days to Maturity from Direct Seed*	Plant Type / Leaf Shape	Leaf Color	Bolting Resistance	Disease Resistance	Uses & Remarks
Olympia	Mature	45-50	Smooth, semi-upright / oval	Green	High	HR: Pfs 1-3, 5, 8, 9, 11, 12, 14, 16	A bolt tolerant variety for spring and summer production.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Ao - White Rust, Pfs - Downy mildew.

\* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
