

# Swiss Chard **FOCUS**

**Baby Leaf / Mature**

## Rhubarb

Rhubarb is a standard for Swiss chard varieties. It has dark red petioles and dark green, savoy leaves. It has an upright plant habit and a moderate bolt tolerance. It is well suited for baby leaf, fresh market, and home gardens.

- Dark red petioles
- Dark green leaves
- Great for baby leaf, fresh market or home gardens

Variety	Type	Days to Baby Leaf Maturity from Direct Seed*	Petiole Color	Leaf Type	Disease Resistance	Uses & Remarks
Rhubarb 	Baby Leaf / Mature	20-27 / 55-60	Dark red	Savoy		Multi-use variety can be used for baby leaf or fresh markets.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Cb - Cercospora leaf spot, Ptb - Downy mildew.

\* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

 = Open Pollinated.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
