

Swiss Chard **FOCUS**

Baby Leaf / Mature

Silverado

Silverado is a slower growing Swiss chard variety. It has nice white petioles paired with dark green, glossy leaves. It is a perfect choice for any baby leaf or fresh market grower. Silverado is a bolt tolerant variety and has an upright plant habit.

- Slow growing
- Nice white petioles
- Dark green glossy leaves

Variety	Type	Days to Baby Leaf Maturity from Direct Seed*	Petiole Color	Leaf Type	Disease Resistance	Uses & Remarks
Silverado 	Baby Leaf / Mature	25-30 / 60+	White	Heavy glossy savoy		Beautiful dark green, glossy, savoy leaves—great for fresh markets.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Cb - Cercospora leaf spot, Ptb - Downy mildew.

* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

 = Open Pollinated.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
