

Broccoli FOCUS

Multi-use

Marathon (Hybrid)

As an industry standard in broccoli, Marathon is widely adaptable. From California to Arizona to Mexico and Central America, this variety has yielded outstanding results for fresh-market bunching, processing and the increasingly popular crown cut market. Marathon has a high dome, small bead and heavy head.

- Uniform and sizes well in cold, overwinter production
- Multi-use variety

Variety	Days to Maturity from Direct Seed*	Plant Height	Head Color	Head Characteristics	Bead Size	Disease Resistance	Uses & Remarks
Marathon	97	Medium tall	Blue-green	Domed, dense	Small		Uniform and sizes well in cold, overwinter production. Multi-use.

Disease terminology: IR = Intermediate Resistance. Disease code: Hb - Downy mildew, Pb - Club root.

* The days to maturity are calculated as an average of fall harvest dates for direct seeded broccoli in Salinas, CA. Some sowing dates may result in earlier or later maturity. Overwinter production can add over 20 days to the numbers listed.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
