

Carrot FOCUS

Cut & Peel

Viper (Hybrid)

Viper was bred for higher density plant populations and maintains its long length (12-14 inches average) to maximize yield for two inch pieces. It is bright orange with a small, indistinctive core and incredible top strength with good stem attachment for easy harvesting. Viper provides a similarly terrific consumer experience, combining a great flavor profile and very crisp texture.

- Long length; 12-14 inches average
- Maximizes yield of 2 inch pieces
- Excellent top strength

Variety	Type	Relative Maturity*	Length / Diameter	Interior Color	Shape	Top Length
Viper	Cut & Peel	Mid	10-14" / .25-.75"	Orange	Long cylindrical, slight taper	16-18"

⊕ = Open Pollinated. * Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
