

Cabbage FOCUS

Green / Round

Charmant (Hybrid)

Charmant produces uniform, solid, medium-sized round heads with blue-green color, a tight internal structure and a short core. It has the best holding ability of all early-market Sakata lines and additionally, does not point under cool conditions. Charmant is resistant to Fusarium yellows race 1 and matures approximately one week later than Headstart.

- Wide adaptability
- Excellent holding ability

Variety	Type	Relative Maturity*	Use	Head Color	Head Size	Disease Resistance	Uses & Remarks
Charmant	Green / Round	Early	Fresh	Green	Medium	HR: Foc: 1 T: TpB	Wide adaptability, great holding ability.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Foc - Fusarium yellows, TpB - Tip burn.

* Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
