

Carrot FOCUS

Cut & Peel

Copperhead (Hybrid)

Copperhead is a nice variety for any cut and peel growing area. This variety offers good yields of medium tall, 10-11 inches long, slightly tapered roots with a semi-blunt tip. Copperhead has vigorous tops, great root length and color.

- For many cut and peel growing area
- Vigorous tops and great root length
- Great color

Variety	Type	Relative Maturity*	Length / Diameter	Interior Color	Shape	Top Length
Copperhead	Cut & Peel	Mid	10-12" / .75-1.25"	Orange	Cylindrical, slight taper, semi blunt tip	14-18"

⊕ = Open Pollinated. * Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
