

Lettuce **FOCUS**

Salinas / Salad Green

Salinas 88 Supreme

An early-maturing iceberg-type lettuce, with more uniformity and vigorous growth than standard selections. The medium-sized heads are dense with crisp, deep green leaves and full outer leaves for head protection. Resistant to lettuce mosaic virus.

- An improved selection of Salinas 88 with better uniformity
- Heavier butt

Variety	Type	Relative Maturity	Head Characteristics	Head / Leaf Color	Disease Resistance	Uses & Remarks
Salinas 88 Supreme	Salinas / Salad Green	Main season (summer)	Uniform, medium	Green	HR: LMV	An improved selection of Salinas 88 with better uniformity, heavier butt.

Disease terminology: HR = High Resistance, T = Tolerance. Disease code: BI - Downy mildew, LMV - Lettuce mosaic, TpB - Tipburn.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
