

# Pak Choi FOCUS

**White Stems**

## Joi Choi (Hybrid)

This hybrid revolutionized the production of pak choi in North America by making it a reliable, easy crop to grow. Joi Choi is slow bolting with excellent uniformity. This variety has been accepted nationwide and is the standard variety in the industry.

- Easy to grow, widely used
- Outstanding uniformity
- Can get quite large

**Shanghai**

## Mei Qing Choi (Hybrid)

Mei Qing Choi is a Shanghai pak choi type with good heat and cold tolerance and bolting resistance. In the U.S., this variety is harvested as baby pak choi. It is smaller than Joi Choi, weighing about a quarter of a pound. This pak choi has an excellent flavor and is extra tender.

- Uniform, slow bolting
- Tight vase-like shape

**Shanghai**

## Feng Qing Choi (Hybrid)

Feng Qing Choi is a slow bolting Mei Qing Choi type with good plant size and a dark leaf color. This variety has excellent holding ability and uniformity.

- Good uniformity
- Excellent holding ability
- Tight vase-like shape

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
