

Pepper FOCUS

Bell

Shogun S10[®] (Hybrid)

Shogun S10[®] is an extra-large variety with high yield potential. It is adapted to late fall, winter and spring in the southeast and summer production in the northeast where bacterial leaf spot is a concern. The fruit have very good size, are smooth and firm with a glossy dark green color maturing to red. Fruit tends to be slightly longer blocky shape. Shogun S10[®] has a strong vigorous plant with good cover and continuous setting ability. It has high resistance to TMV: 0 and intermediate resistance to TSWV and Xcv: 0-10.

- Strong plants with good cover
- High yield potential with good size
- HR: TMV: 0 \ IR: TSWV and Xcv: 0-10

Variety	Type	Relative Maturity*	Fruit Size / Shape	Fruit Color	Plant Habit	Disease Resistance	Uses & Remarks
Shogun S10 [®]	Bell / Outdoor	Mid	Large to extra-large / Blocky	Green to red	Medium-large, tall	HR: TMV: 0 IR: TSWV / Xcv: 0-10	Shogun S10 has a strong vigorous plant with good cover and continuous setting ability.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease abbreviation code: Mi - Nematode, Pc - Phytophthora root rot, PMMoV - Pepper mild mottle, PVY - Potato Y, Rs - Bacterial wilt, TEV - Tobacco etch, TMV - Tobacco mosaic, TSWV - Tomato spotted wilt, Xcv - Bacterial spot.

* Days to Relative Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
