

# Pumpkin **FOCUS**

**40 Count / 18-22 lb**

## Spartacus (Hybrid)

Spartacus is a uniform blocky round pumpkin with high yield potential in the “40 count”/jack-o-lantern class. Spartacus is dark orange with medium deep ribbing and an extra large dark handle. Spartacus is also resistant to powdery mildew.

- Hard shell, smooth skin
- Ideal for painting

| Variety   | Class Category | Weight / Size / Shape                  | Days to Maturity from Direct Seed* | Vine Type       | Skin Color / Ribbing       | Handle Color / Length | Disease Resistance | Uses & Remarks                                                                    |
|-----------|----------------|----------------------------------------|------------------------------------|-----------------|----------------------------|-----------------------|--------------------|-----------------------------------------------------------------------------------|
| Spartacus | 40 count       | 18-22 lb / 11 x 13" / 100 blocky round |                                    | Restricted vine | Dark orange / deep ribbing | Dark green / 4"       | IR: Sf             | Spartacus is dark orange with medium deep ribbing and an extra large dark handle. |

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Sf - Powdery Mildew. \* Days to Maturity are an approximation and may fluctuate due to varying planting times, location and conditions.

Class Category: Mini 1-2 lb, Pie 2-6 lb, Tweener 2-6 lb, 50 Count 1313-16 lb, 40 Count 17-22 lb, Large 23-30 lb, Monster 30lb +, Specialty 10-15 lb.

DISCLAIMER: Any representations and other information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Triploid hybrid watermelon varieties will on occasion produce white and hard, dark vestigial seed coats and, therefore, are not warranted to be completely “seedless”. Statements concerning the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. SAKATA GIVES NO WARRANTY, EXPRESS OR IMPLIED, FOR CROP PERFORMANCE RELATIVE TO THE INFORMATION GIVEN; NOR DOES SAKATA ACCEPT ANY LIABILITY FOR ANY LOSS, DIRECT, INDIRECT, OR CONSEQUENTIAL, THAT MAY ARISE FROM ANY CAUSE. Please read all seed package labeling carefully to understand the terms and conditions of sale.
