Disease terminology: HR = High Resistance; IR = Intermediate Resistance

Disease abbreviation code: Cb - Leaf spot *Cercospora beticola*; Pfb - Downy mildew *Peronospora schachtii* (*Peronospora farinosa* f. sp. *betae*);

Pfs - Downy mildew *Peronospora effusa* (*Peronospora farinosa* f. sp. *spinaciae*)

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
