**SAKATA®**

## Cabbage You Can Count On!

Sakata offers an array of widely adaptable cabbage varieties specifically bred and extensively trialed to ensure dependable performance, high yield and market fit. No matter how you slice it, Sakata has the perfect cabbage variety for your needs, backed by our stellar reputation of quality, reliability and service!

Green / Round

### Osceola

Osceola is a large green cabbage that serves dual purpose for processor/fresh market. This cabbage has a vigorous plant frame, good field holding, mid-late maturity, and intermediate resistance to Black rot.

Green / Round

### Supreme Vantage

Supreme Vantage is a mid maturing hybrid. This variety's plant habit is slightly open with round, solid and dense heads. Supreme Vantage is an attractive blue-green color with Fusarium yellows race 1 resistance. It is ideal for fresh and shredder markets. This variety performs well in coastal California.

Green / Round

### Grand Vantage

This is an exciting fresh-market variety with attractive green to blue-green color. Grand Vantage has a very round head, heavy weight, dense solid interior and short core. It has excellent tight wrapper leaves and a strong frame. Grand Vantage is a very adaptable main season variety. It has good holding ability and excellent yield potential. This variety is resistant to Fusarium yellows race 1.

Red / Round

### Red Jewel

This variety is a high-yielding red cabbage hybrid with uniform maturity. Red Jewel offers a deep red head with a short core and is ideal for both fresh and shredder markets.

### Savoy King

This variety is an outstanding, very popular, second-early, savoy-type hybrid. Under mild climates, Savoy King may be sown in spring, summer and autumn. It is a large headed, heavy yielder offering semi-flat, short-cored and nicely textured heads which are excellent for fresh-market usage. Savoy King is also an AAS Award Winner.

Savoy / Green

Green / Round

## Xtreme Vantage

Xtreme Vantage is a new cabbage variety from Sakata showing very good uniformity in the field. In addition, it has a good disease package showing strong resistance against Black rot and a strong tolerance to Tip burn.

Green / Round

## Blue Vantage

This variety has mid-season maturity with large, dense heads which are short cored. Blue Vantage is Fusarium yellows race 1 resistant and tipburn tolerant. It is ideal for fresh and coleslaw markets and for those who require larger head sizes than Headstart. In Texas, this variety has mid-season maturity with large, dense heads which are short cored.

Green / Round

## Royal Vantage

Royal Vantage yields large heads, which are excellent for the shredder market. It is five to seven days later than Blue Vantage with solid, round heads and a well-filled interior. It is Fusarium yellows race 1 resistant. Royal Vantage offers excellent quality for long distance shipping. It is also very popular in Mexico.

Green / Round

## Greenboy

Greenboy is a mid-season hybrid with wide adaptability and Fusarium yellows race 1 resistance. It has a medium head with a very solid white interior and overall good quality. This variety is ideal for fresh market and shipping. Greenboy has an excellent performance in worldwide markets from cool to tropical regions.

Green / Round

## Emblem

This hybrid is a gray-green, round, mid-season, fresh-market cabbage. Emblem has shown very good internal quality and is Fusarium yellows race 1 resistant.

Green / Round

## Primo Vantage

This notable variety has excellent uniformity, holding ability and a short core. Primo Vantage's dark green heads average 4 to 4.5 pounds. This variety's maturity is mid-early with resistance to Fusarium yellows race 1.

Green / Round

## Storage #4

Storage #4 is an excellent-yielding storage type with a nice dark green color. This versatile variety also works great in the late fall for fresh market, especially in muddy and rainy conditions. Due to its earliness when used for storage, we recommend later season plantings for best storage results.

## Fast Vantage

A great-tasting, early variety in the Headstart class with slightly earlier maturity and improved uniformity under cool conditions. Fast Vantage is an excellent choice for growers looking for high quality and uniform yields.

Green / Round

# CABBAGE HYBRIDS

Variety	Type	Relative Maturity*	Use	Head Color	Head Size	Disease Resistance	Uses & Remarks
Bobcat	Green / Round	Mid	Fresh, processing	Blue-green	Medium-large	HR: Foc: 1 T: TpB	Wide adaptability.
Blue Vantage	Green / Round	Mid	Fresh, processing	Blue-green	Medium-large	HR: Foc: 1 T: TpB	Wide adaptability, good for direct sowing.
Charmant	Green / Round	Early	Fresh	Green	Medium	HR: Foc: 1 T: TpB	Wide adaptability, great holding ability.
Emblem	Green / Round	Mid-late	Fresh, processing	Gray-green	Medium-large	HR: Foc: 1	Good internal quality, prefers warm weather.
Fast Vantage	Green / Round	Very early	Fresh	Green	Medium		Excellent early cabbage, heat tolerance.
Grand Vantage	Green / Round	Mid-late	Fresh	Green	Medium-large	HR: Foc: 1	Nice, tight wrapper. Wide adaptability.
Greenboy	Green / Round	Mid-late	Fresh	Green	Medium	HR: Foc: 1	Heat and rain tolerant.
Osceola	Green / Round	Mid-late	Fresh, processing	Blue-green	Large	IR: Xcc, HR: Foc: 1	Dual purpose for processing/fresh market. Good field holding ability.
Primo Vantage	Green / Round	Early	Fresh, processing	Green	Medium	HR: Foc: 1	Excellent uniformity. Good holding ability.
Royal Vantage	Green / Round	Mid-late	Fresh, processing	Blue-green	Medium-large	HR: Foc: 1	Grows well under cool weather or poor soil conditions.
Stellar Vantage	Green / Round	Mid-late	Fresh	Green	Medium	HR: Foc: 1 IR: Xcc	Good holding ability. Intermediate resistance to Xcc.
Storage #4	Green / Round	Late	Fresh, storage, processing	Dark green	Medium-large	HR: Foc: 1	Wide adaptability, excellent holding ability.
Stonehead	Green / Round	Early	Fresh	Gray-green	Medium	T: TpB	Compact, excellent holding ability.
SuperStar	Green / Round	Mid-late	Fresh, processing	Green	Medium-large	HR: Foc: 1	Excellent holding ability with thick leaves.
SuperStor 112	Green / Round	Very late	Storage, processing	Blue-green	Large	HR: Foc: 1	Mid to long term storage. Vigorous plant with high yields.
Supreme Vantage	Green / Round	Mid-early	Fresh, processing	Green	Medium-large	HR: Foc: 1	Good holding ability.
Vantage Point	Green / Round	Late	Fresh, kraut	Blue-green	Large	HR: Foc: 1 T: TpB	Good yields with late maturity.
Red Jewel	Red / Round	Mid	Fresh, processing	Garnet red	Medium-large		Early maturity, good size and color.
Savoy King	Savoy / Green / Semi-flat	Mid	Fresh	Green	Medium-large		Excellent yields. Attractive savoy type.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance. Disease code: Foc - Fusarium yellows, TpB - Tip burn.

DISCLAIMER: Any representations and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Triploid hybrid watermelon varieties will on occasion produce white and hard, dark vestigial seed coats and, therefore, are not warranted to be completely "seedless". Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, Sakata gives no warranty, express or implied, for crop performance relative to the information given; nor does Sakata accept any liability for any loss, direct, indirect, or consequential, that may arise from any cause. Please read all seed package labeling carefully as it contains terms and conditions of sale.
