

# Chinese Cabbage **FOCUS**

**Baby Napa / Heading**

## **China Coast** (Hybrid)

China Coast is a medium-maturing hybrid with dark green color. It has good uniformity and size with intermediate resistance to some races of clubroot.

- Used for main season through Fall
- Uniform, large frame with good weight
- Dark green exterior color
- IR: Pb

**Napa / Heading**

## **China Gold** (Hybrid)

China Gold has excellent external and internal color. It has a compact frame, good weight and is very slow bolting. This variety is tolerant to tipburn and some clubroot races.

- Tolerant to tip burn and some club root races
- Very slow bolting

**Baby Napa**

## **China King** (Hybrid)

China King is a miniature (baby) type of Chinese cabbage. Suitable for planting in close spacing as it has a compact frame. It has barrel-shaped heads with yellow interior color. It is slow bolting and tolerant to tipburn.

- Compact frame suitable for dense planting
- Early maturity and slow bolting
- Nice uniformity

**Napa / Heading**

## **Yoda** (Hybrid)

Yoda is a Napa Cabbage with a large barrel shaped head and dark green outer leaf. Inside color is a brilliant yellow with a solid dense interior.

- High yield
- Good resistance to disease
- Excellent color

**Napa / Heading**

## **Yuki** (Hybrid)

Yuki is a medium-maturing, China Express type hybrid. It has good uniformity and size with tolerance to black speck and intermediate resistance to some races of clubroot.

- Good uniformity and size

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
